

Hurricane Preparedness Tips

STARTING POINTS:

- ❖ Develop your personal disaster plan on how you will protect your household and your property.
- ❖ Check your insurance coverage and be sure it includes replacement coverage, flood, and wind protection.
- ❖ Trim your trees and bushes in May so they will survive damaging winds. You can get tree-trimming tips from the Miami-Dade Cooperative Extension Office.

CITIZENS CHECKLIST: Based on National Hurricane Center forecasts, Miami-Dade County will announce in the local media information about what citizens should be doing as a storm is approaching. **Once residents and tourists hear that a tropical storm has formed, listen for these stages of readiness:**

Ready: There is a storm threat - review your plan and get ready to act.

Set: A storm is likely - take actions to protect your home and business.

Safety: A storm is forecast to strike - orders and instructions to evacuate and/or to take shelter will follow.

EVACUATION: If you live in an evacuation zone, make plans to leave early to the inland home of a friend or family member.

- ❖ **IF YOU LIVE IN A MOBILE HOME OR ARE ELECTRICALLY DEPENDENT YOU SHOULD EVACUATE FOR ANY CATEGORY OF TROPICAL STORM OR HURRICANE.**
- ❖ Rehearse your evacuation plan with your household and leave extra time for traffic. Fuel vehicles.

- ❖ STS users: STS has a very limited number of vehicles and will only provide one (1) trip during evacuations.
- ❖ Beware of canals / road washouts hidden by high water.

COMMUNICATIONS:

- ❖ Establish an out-of-state or area phone number to relay messages to friends and family.
- ❖ Assign someone in your home the job of checking the weather everyday during Hurricane Season.
- ❖ Once a tropical storm has formed monitor the National Hurricane Center forecasts which are released at 5 a.m., 11 a.m., 5 p.m. and 11p.m.
- ❖ Keep a battery-operated radio and two weeks supply of batteries on hand at all times.

SHELTERING IN PLACE: If your residence is not in an evacuation zone and has hurricane shutters, you may be able to take shelter there. Remember these things:

- ❖ Take refuge in an interior hallway or smaller room with no windows, like a closet near load bearing walls.
- ❖ Keep a mattress nearby to protect your head.
- ❖ Be sure to leave a clear path to exit in case of fire and keep a fire extinguisher nearby. Only use battery operated lamps or flashlights.

SAFETY AFTER THE STORM:

- ❖ Car accidents are the main cause of injury after a hurricane; treat all intersections like a 4-way stop. Combine your trips and drive only if it's absolutely necessary.
- ❖ Stay away from all downed utility lines and do not drive over them. Do not wade in floodwaters after a storm.
- ❖ Limit your phone calls to absolute necessity and only call 911 for life threatening emergencies.
- ❖ **GENERATORS:** Ground your generator and do not run generators inside your home. Do not connect to your home's electrical system, it is a fire / electrocution risk.
- ❖ Operate chain saws safely, read warnings on saw.
